

## REACH NYILATKOZAT

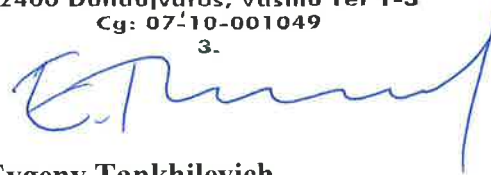

Az ISD DUNAFERR Zrt igazolja, hogy 2013. május 31-ig az Európai Vegyianyag-ügynökségnél (ECHA) regisztrált minden olyan anyagot, amelyre a REACH rendelet (1907/2006/EK) szerint kötelezettsége volt.

Az ISD DUNAFERR Zrt által értékesített valamennyi hengerelt acéltermék a REACH terminológiája szerint árucikknek minősül (1907/2006/EK 3. cikk (3) bekezdés), így mentesül a regisztrációs követelmények alól, azonban az acéllal – mint speciális keverékkel – és annak valamennyi összetevőjével foglalkoznia kell a REACH rendelet kapcsán. Annak érdekében, hogy megbizonyosodjunk arról, hogy a termékeinkbe bekerülő valamennyi anyag regisztrált, vagy elő-regisztrált státuszban maradt, az ISD DUNAFERR Zrt minden beszállítójával kapcsolatban áll.

Az ISD DUNAFERR Zrt megvizsgálta az ECHA honlapján közzétett „különös aggodalomra okot adó anyagok” 2017. január 12-én frissített listáját (Substances of Very High Concern, SVHC), és nyilatkozik arról, hogy a gyártott / értékesített termékeiben a jelöltlistán lévő anyagok egyike sem található.

## 1. sz. Melléklet

Különös aggodalomra okot adó anyagok engedélyezésének jelöltlistája...

1 / 15

[Bemutatók](#) [Rendelet](#) [Az aggodalomra okot adó anyagok kezelése](#) [Információk a vegyi anyagokról](#) [Vegyi anyagok az életünkben](#) [Támogatás](#)

ECHA > Az aggodalomra okot adó anyagok kezelése > Engedélyezés > A különös aggodalomra okot adó anyagok azonosítása > A különös aggodalomra okot adó anyagok engedélyezésének jelöltlistája > Candidate List

### Különös aggodalomra okot adó anyagok engedélyezésének jelöltlistája

(közzététel a REACH rendelet 59. cikke (10) bekezdésével összhangban)

#### Megjegyzések:

- › **Hiteles változat:** Kizárólag az a weboldalon közzétett jelöltlista tekintendő hitelesnek. Egy vegyi anyag e weboldalon található jelöltlistára kerülése a vállalatra azonnali hatállyal jogi kötelezettségeket róhat, különös tekintettel a REACH-rendelet 7., 31. és 33. cikkeiben foglaltakra.
- › **A listára kerülés oka:** Az 57. cikk (a) pontja alapján a „rákkeltő” veszélyességi osztály 1A .vagy 1B. kategóriájának megfelelő anyagok; az 57. cikk (b) pontja alapján a „csírasejt-mutagenitás” veszélyességi osztály 1A .vagy 1B. kategóriájának megfelelő anyagok; az 57. cikk (c) pontja alapján a „reprodukciós toxicitás” veszélyességi osztály 1A. vagy 1B. kategóriájának megfelelő anyagok; az 57. cikk (d) pontja alapján a perzisztens, bioakkumulatív és mérgező anyagok; az 57. cikk (e) pontja alapján a nagyon perzisztens és nagyon bioakkumulatív anyagot; az 57. cikk (f) pontja alapján pedig azok az anyagok, amelyek valószínűleg olyan súlyos hatást gyakorolnak az emberi egészségre (és/vagy) a környezetre, amely az a)-e) pontban felsorolt anyagokkal azonos mértékű aggodalomra ad okot. Amennyiben ebben az oszlopban indexszámok jelennek meg, az azt jelenti, hogy a „Részletek” gombra kattintva információk érhetők el a vegyi anyag osztályozására vonatkozó feltételekről.
- › **EK-szám, CAS-szám:** Az EK-szám az anyag vízmentes és hidrált formáit is tartalmazza, ezért a bejegyzések mindkét formát lefedik. Előfordulhat, hogy a CAS-szám csak a vízmentes formára vonatkozik, ezért a megjelenő CAS-szám nem mindig írja le pontosan a bejegyzést.
- › **Egyéb numerikus azonosítók:** Az EK-szám és CAS-szám oszlopokban „-” jellel szereplő bejegyzések vonatkozásában szerepel egy nem kimerítő jellegű lista az EK és/vagy CAS regisztrációs számokról, amelyek leírják azokat a vegyi anyagokat vagy vegyi anyagok csoportját, amelyek a jelöltlista hatálya alá tartozónak tekinthetők. Ez az információ a kiválasztott bejegyzés „Részletek” gombjára kattintva érhető el.
- › **IUCLID 5 anyagadatlapon:** Ezek részben előre kitöltött anyagadatlapon IUCLID 5 formátumban, amelyek az árucikkekben található anyagokra vonatkozó bejelentéseket elkészítő árucikk-importőrök és -előállítókak segítik. Azonban kizárólag a bejelentő vállalat felelős a bejelentésben szereplő információk megfelelőségéért és pontosságáért.
